PAPER CONVERTING TECHNOLOGY

CONVERTING DIVISION

Kalideck offers the latest in paper and packaging converting technology

TIME SAVING

Advance technology with 4 - reel stand.

COST EFFECTIVE

Runs at high speed allowing maximum sheeting throughput.

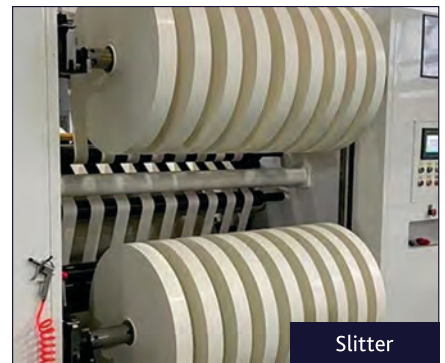

FLEXIBILITY

Adaptive customization for just-in-time delivery.

On demand flexible Sheeting and Slitting solutions for paper and packaging boards

The Converting Division is equipped to handle high volumes whilst making use of a sophisticated inventory scheduling and stock management system, which provides complete visibility and traceability for effective customer satisfaction. The converters run at high speeds, are compact and easy to integrate for every paper and board segment.

In addition, we also supply Slip sheets: Thin pallet-sized sheets made of Kraft Paper typically placed between a wooden pallet and the pelletised material to prevent pelletised products from incurring damage during storage, handling, and shipping.
